Staff prepared a draft annual action plan for the 2017/2018 program year. This plan was reviewed, discussed, and recommended for approval by the Executive Committee at its April 14, 2017, meeting: Draft PY 2017/2018 Annual Action Plan

On March 8, 2017, Gil Mathew, Bill Gaines, and Michael Cross participated in the California Workforce Association’s annual *Day at the Capitol*. The NoRTEC team spoke with several North State legislators about NoRTEC and the Grow Manufacturing Initiative. This was a great opportunity to highlight NoRTEC and increase awareness of our programs and initiatives.

**XI. MEMORANDUM OF UNDERSTANDING, PHASE II (INFORMATION)**

NoRTEC staff, with the assistance from the local programs, are busy developing the Phase II of the Memorandum of Understanding (MOU) document with all the required workforce partners in the eleven county region. This document will build upon the agreements established in Phase I and determine how to best support the established service delivery model through the sharing of resources and costs.

The document will be quite lengthy and is currently under development. The completed, signed document must be submitted to the California Workforce Development Board by September 1, 2017.

**XII. NORTEC POLICIES (ACTION)**

With the transition from WIA to WIOA, staff continue to write new policies and update those created under WIA.

Staff recently developed a policy statement to define what is considered a “self-sufficient” annual earnings level for employed workers who seek training services under the WIOA program. Employed participants may seek career services through the AJCCs regardless of their employment status. In order to access training services, however, an employed worker must have an annualized family income level below the NoRTEC approved self-sufficiency level. If they have an annualized family income above the self-sufficiency level, they can only access training services paid for with WIOA funding if the training has a possibility of leading to a job with earnings comparable to or higher than wages from previous employment.

After extensive research, staff are recommending that self-sufficient earnings be defined as annualized wages for the family that are 175% of the Lower Living Standard of Income Level (LLSIL) as defined by the Secretary of Labor. This level of income is updated annually, and varies based upon the number of individuals in a family.

*Self-Sufficiency Standards and the Provision of Training to Employed Workers Policy*

The Program Committee has reviewed the policy and is recommending approval by the Workforce Development Board and the Governing Board.
XIII. PY 2017/2018 BUDGETS (ACTION)

A. NoRTEC Administrative Entity Budget

The Finance Committee has reviewed the budget and is recommending the PY 2017/2018 Administrative Entity Operating Budget be approved at $1,389,166, and the Administrative Other Projects Budget be approved at $605,000. This is an increase of $177,278 for the Operating Budget and an increase of $100,000 for the Other Projects Budget.

Operating Budget changes reflect an increase to rent based on the lease agreement. The increases to salaries, benefits, supplies, and travel are to accommodate new staff positions: two Grow Manufacturing Initiative (GMI) staff members and one NoRTEC staff position. All three positions are funded with new grant funding received specifically to fund those positions. The increase to the Other Projects Budget is to fund NoRTEC Business Services as described in the 2017/2018 NoRTEC Annual Action Plan.

All budgets are approved subject to the availability of funding. Sufficient funding to cover the budget is anticipated.
